page 4

Fares may change each month based on the number of days traveled. An example is shown below:

Your average daily round-trip miles:	55	
Multiplied by # of days your van will travel in the next month:	x 21	
	=1155	This is your total monthly miles
Refer to above fare worksheet to find fare (round up to next 10 mile increment)	1,155	\$547.12

\$547.12 is the amount the group will need to pay to bookkeeper **before** the month starts.
